

**DOORS &
ENGINEERING
LIMITED**

A company built on customer focus
within the door service industry

We specialise in the installation, repair, and maintenance of:

*Automatic Doors, Manual Doors,
Fire Doors,
Fire Escapes and Movable Walls*

To discuss your requirements

Call free on : **0808 1200911** Email : **info@bhdoors.co.uk**

Or alternatively visit our website : **www.bhdoors.co.uk**

With over 15 years' experience within the door service industry we have set up our company to provide you with a personal service.

We understand that if your doors fail it is a major problem and causes inconvenience.

All work carried out to British Standard 7036, Document M and DDA Legislation

Preventative Maintenance

Preventative maintenance is the key to increasing long term reliability and reducing overall costs. We would be pleased to arrange a visit to your site to provide a quotation for this service and produce an Asset Register to ensure that all door closing equipment is detailed.

Our specific service schedules are for each type of door detailing the schedule of works carried out. This ensures that you, the customer are aware of all necessary work and costs prior to any maintenance visit. Risk Assessments and Method Statements are included.

All maintenance visits are arranged with the customer for the most convenient time and date prior to the month of visit.
